PROFILE

System Analyst with strong experience in data analysis, reporting, and business process support. Skilled in translating business requirements into data-driven insights using SQL, Excel, Tableau, and Python. Experienced in career fairs, recruitment support, and stakeholder engagement—bridging business, systems, and people to support enterprise decision-making in financial and corporate environments.

TECHNICAL SKILLS

Programming & Data: SQL, Python (Pandas, NumPy), R, MySQL
Visualization Tools: Tableau, Power BI, Looker Studio, Excel
Other Tools: Git, Jupyter Notebook, WordPress, PHP, JavaScript, Visual Studio
Soft Skills: Communication, collaboration, analytical thinking, problem-solving

HIGHLIGHTED ANALYTICS PROJECTS (GITHUB PORTFOLIO)

Remote | Jan 2023 – Present

• Completed multiple in-house, non-industry practice projects to build data analytics skills.
• Applied real techniques learned through IBM and Google professional certifications.

Cyclistic Bike-Share Practice Analysis (SQL & Tableau)

• Cleaned and analyzed 12 months of ride data using SQL (CTEs, window functions)
• Built dashboards comparing member vs. casual rider behavior to support business insights

Retail Sales & Customer Insights Dashboard (Excel)
• Created pivot tables and dashboards to analyze revenue, customer demographics, and trends.
• Delivered actionable insights on high-value customer segments and seasonal sales

Nashville Housing Market EDA (SQL)
• Cleaned and standardized a housing dataset;
 • Standardized dates, split and organized address fields, updated categorical values, and removed duplicates.

COVID-19 Dataset Trend Analysis (SQL & Tableau)
• Cleaned and preprocessed COVID-19 case and vaccination datasets using SQL.
• Applied joins, CTEs, window functions, and aggregate calculations to analyze total cases, deaths, infection rates, and vaccination coverage.
 • Created views and temporary tables to support further analysis and visualization practice.

Tesla vs. GameStop Stock Analysis (Python & Plotly)
• Scraped historical stock and revenue data for Tesla and GameStop using Python libraries (yfinance, BeautifulSoup).
 • Built interactive dashboards in Plotly to compare stock performance and revenue trends over time.

PROFESSIONAL EXPERIENCE
Event Marketing Representative – Client & Recruitment Support
Renewal by Andersen; Carrollton, TX
Aug 2025–Present

• Represent the organization at career fairs, recruitment events, and community outreach programs
• Engage with candidates and explain job roles, hiring processes, and company offerings
• Collect, validate, and organize candidate and customer data to support
CRM accuracy and reporting
• Share insights from events with marketing and hiring teams to improve outreach strategies
• Support cross-functional teams by translating field feedback into actionable data points
